MESSAGE FROM THE PERMANENT SECRETARY

The Ministry of Health has published the Uganda Master Health Facility List 2019, as a directory of health facilities in Uganda. This will enable the different stakeholders to identify and locate the health service providers in Uganda in a timely manner. In addition, the Uganda Master Health Facility List will guide planning and equity in resource allocation and distribution.

All relevant information for each health facility including; Region, Sub region, District, County, Health Sub-District, Sub county, Parish, name, level, authority and ownership were captured. The Master Health Facility List will be used to assign unique National Health Provider Identifier (NHPI) codes and a Health Services Delivery Taxonomy (HSDT) Codes to all the health facilities.

A total of 6,929 health facilities from all 127 districts and Kampala City Council Authority (KCCA) were registered during the process. These include 2 (0.03%) National Referral Hospitals, 3 (0.04%) Referral Hospitals, 13 (0.19%) Regional Referral Hospitals, 163 (2.35%) General Hospitals, 23 (0.33%) Special Clinics, 221 (3.19%) Health Centre IVs, 1,572 (22.69%) Health Centre IIIs, 3,364 (48.49%) Health Centre IIs, and 1,575 (22.73%) Clinics.

The health facility inventory will be updated annually to reflect the changes that occur due to the continuous development of health facilities, closure of health facilities and changes in administrative units, among others. I therefore request the Local Government and KCCA leaders to always provide the Ministry of Health timely information on new and officially approved administrative units and health facilities to be able to generate an accurate Master Health Facility List.

DR DIANA ATWIINE
PERMANENT SECRETARY - MINISTRY OF HEALTH

ACKNOWLEDGEMENT

The Ministry of Health acknowledges the efforts and contribution of all stakeholders towards the development of the Uganda Master Health Facility List 2019. The process has been tedious involving review of the first version developed in 2017/18 Financial Year through a National Stakeholders' meeting and individual district consultations and updates.

Special thanks go to but not limited to the Chief Administrative Officers, District Health Officers, Director Public Health in KCCA, District Biostatisticians, Division of Health Information, Ministry of Health Call Centre team, Commissioner Health Services for Planning, CDC/Monitoring & Evaluation Technical Support (METS) Program, World Health Organization (WHO), National HIS Technical Working Group for their participation, technical, financial support and guidance within their respective capacities throughout the process of developing the Uganda Master Health Facility List, 2019.

DR. HENRY G. MWEBESA
AG. DIRECTOR GENERAL HEALTH SERVICES

1. INTRODUCTION

This Health Facility Master List is a complete listing of both public and private health facilities in the country. There are 6,937 health facilities and each are established under unique administrative units i.e. Region, district, health sub-district, and subcounty etc. The need to uniquely identify health facilities in the country is of paramount importance for better health service delivery. Many countries do not have accurate and informed data on their health facilities yet this can facilitate effective monitoring of infrastructure development and services provided to their increasing population. Uganda has always suffered the same. Various organisations including researchers have multiple lists of health facilities across the country. More so, the facilities differ not only in the information they contain but also in the way they are named and identified. There is no common identifier to uniquely identify the facilities.

Every financial year, the Ministry of Health is tasked to make budgetary projections for all health facilities from the Finance Ministry within a tight budget envelop. The tight budget projections cascade down to lower health facilities. Such problems would be history if a complete and accurate list of uniquely identifiable health facilities countrywide is provided. This Master Facility List will guide the Ministry of Health, Planning Department to make appropriate decisions to support the actual health facilities accordingly while ensuring equity in resource distribution. Moreover, a clean Master Health Facility List with unique Ids, the National Health Provider Identifier(NHPI) will offer a directory of health facilities by level, ownership, functionality and services provided. This will allow for different stakeholders to locate service providers such as specialists in a timely manner. Communication with service providers will likewise be improved especially when referring patients or making decisions about patients' care needs. Thus allowing for health workers to seek a second opinion (Telemedicine).

Together with key stakeholders in consultation with District Local Governments, the Ministry of Health has compiled this Master Health Facility List for 2018. The Master list will be updated annually to cater for newly established or upgraded health facilities. The list provides;-

- A complete list of health facilities by location, level, ownership and status of functionality.
- Unique Codes for identification of health facilities and administrative units and serves a single reference point by all stakeholders
- To guide effective planning for equitable distribution of resources (services, staffing, rational distribution of medicines and supplies, and access)

Enable identification of underserved areas by providing a guide for locating and/or setting up of new Health Units and other resources required. Allowing for Geo Spatial Analysis and Mapping.

HEALTH FACILITIES

1.1 HEALTH FACILITY CATEGORIES

1.1.2 Functional Levels

Uganda's health facilities are classified into seven levels based on the services they provide and the catchment area they are intended to serve. The health facilities are designated as Health Centre level one (HC I) to Health Centre Level four (HC IV); General hospital, Regional Referral hospital and National Referral hospital. The respective services provided at each of the levels and the desired catchment area / populations are as in Table 1. The Special clinics are health facilities with specialised services provided e.g. TASO Sites offer HIV related services only.

Table 1: Service Delivery by Level of Health Facility.

#	LEVEL	POPULATION	SERVICES PROVIDED
1	Clinic	Not-Defined	Community based preventive and Promotive Health Services. Village Health community or similar status.
2	Health Centre II	5,000	Preventive, Promotive and Outpatient Curative Health Services, outreach care, and emergency.
3	Health Centre III	20,000	Preventive, Promotive, Outpatient Curative, Maternity, inpatient Health Services and Laboratory services.
4	Health Centre IV	100,000	Preventive, Promotive Outpatient Curative, Maternity, inpatient Health Services, Emergency surgery and Blood transfusion and Laboratory services.
5	General Hospital	500,000	In addition to services offered at HC IV, other general services will be provided. It will also provide in service training, consultation and research to community based.
6	Referral Hospital	1,000,000	In addition to services offered at the general hospital each hospital will offer a package of specialised services and training.
7	Regional Referral Hospital (RRH)	2,000,000	In addition to services offered at the general hospital, specialist services will be offered, such as psychiatry, Ear, Nose and Throat (ENT), Ophthalmology, dentistry, intensive care, radiology, pathology, higher level surgical.
8	National Referral Hospital (NRH)	10,000,000	These provide comprehensive specialist services. In addition, they are involved in teaching and research.

1.1.2 Functional Status

The status of health facilities has been classified into four categories namely: Functional, Not Functional, Completed and under construction.

Functional facilities: refers to facilities that have been operating as of June of a financial year;

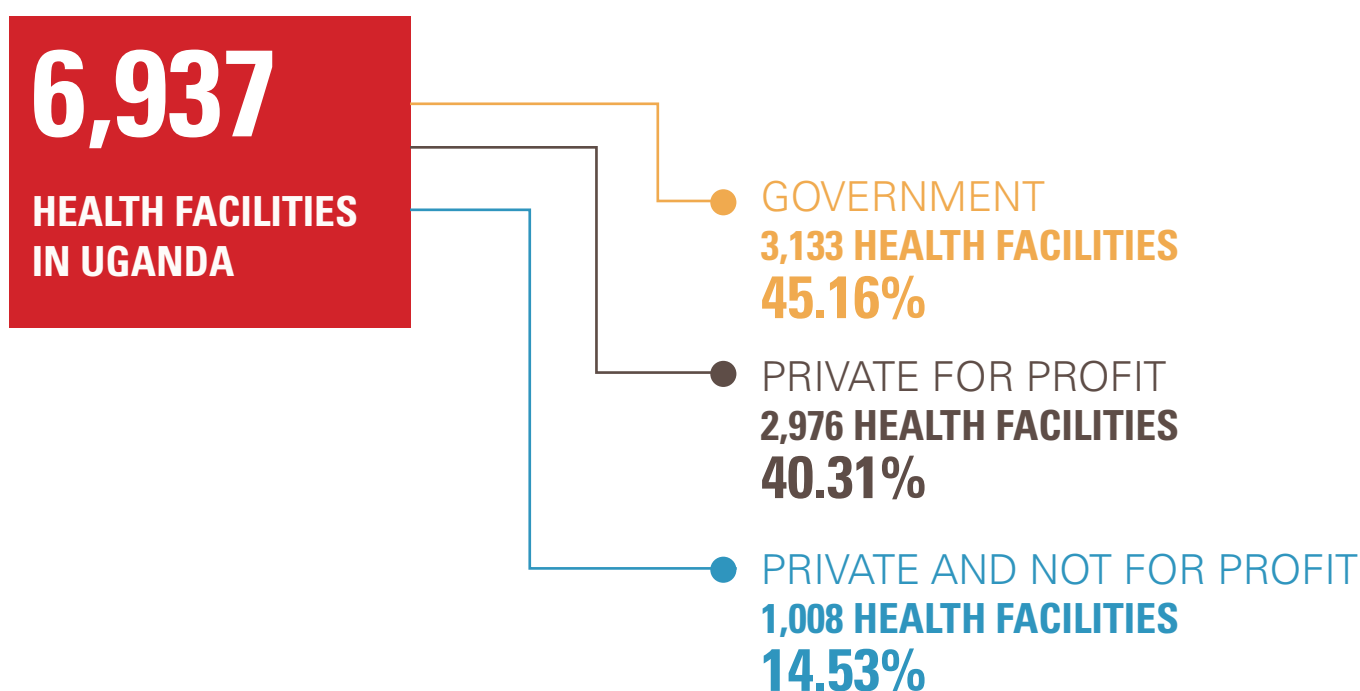

- Not functional facilities: refers to facilities that have the basic infrastructure but are not operational for reason such as armed conflict, lack of staff and equipment, and for which there is plan to operationalize them in future financial year;
- Completed facilities: Health facilities which were not operating by June due to lack of either medicines or staff but are ready to start operations in the financial year;

Under construction: Health facilities that are still being developed and shall not carry out service delivery operations in the financial year.

1.2 SUMMARY OF HEALTH FACILITIES

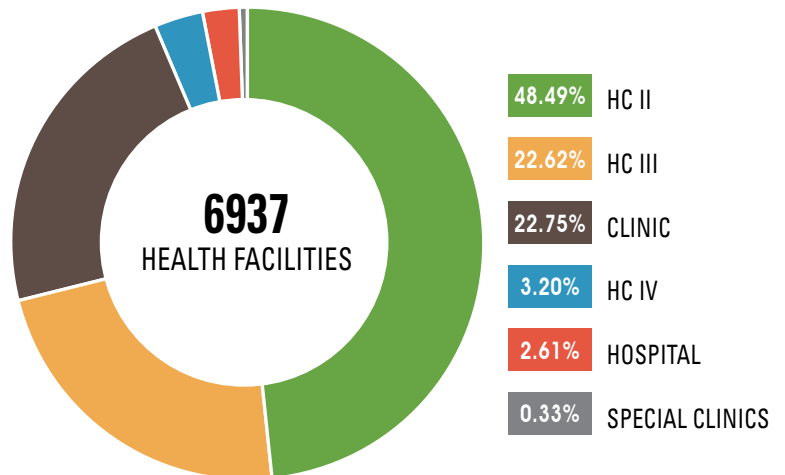

A total of 6,937 Health facilities and special clinics from 128 districts are included in this booklet. 45.16% (3,133) of health facilities are Government owned, 14.44% (1,002) are Private and Not For Profit (PNFP) while the remaining 40.29% (2,795) are Private For Profit (PFP) and 0.10% (7) community-owned facilities. The Government and PNFPs are mostly higher levels of health facilities while the Private For Profit facilities majorly consists of lower levels (HC IIs and clinics). There are 2 National Referral Hospitals, 13 Regional Referral Hospitals, 3 Referral Hospitals, 163 General Hospitals, 222 Health Centre IVs, 1,574 Health centre IIIs, 3,365 Health Centre IIs, 1572 Clinics and 24 Special Clinics from TASO, AIDS Information Centre (AIC) and Children's AIDS Fund Uganda (CAFU).
