

Vision statement

Quality life, self-worth and hope for bright future for HIV infected children, adolescents and other vulnerable and marginalised groups countrywide.

Mission statement

To achieve our vision through high quality and complex health services for children, adolescents and targeted groups. To bring them hope for better future by improvement of their health status and humane treatment. To build their self-confidence, to support the education and to open the way for better future without stigma or without aside position.

Program's key objectives

- High quality paediatric HIV/AIDS care services in Buikwe District
- Family approach
- Delivery of HIV/AIDS services to rural areas
- Prevention program among children and adolescents
- Education and psychosocial support of beneficiaries
- Chronic Care Program
- Palliative Care
